

Xtrackers MSCI China A Inclusion Equity ETF (ASHX)

1st quarter 2018

Strategy

On 6/1/18 Xtrackers CSI 300 China A-Shares Hedged Equity ETF changed its name to Xtrackers MSCI China A Inclusion Equity ETF. The investment objective and expense ratio also changed at that time. The fund seeks investment results that correspond generally to the performance, before fees and expenses, of the MSCI China A Inclusion Index. The index is designed to track the progressive partial inclusion of A shares in the MSCI Emerging Markets Index over time.

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit www.Xtrackers.com or call 855-329-3837.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

Risks:

Investing involves risk, including the possible loss of principal. Stocks may decline in value. Funds investing in a single industry, country or in a limited geographic region generally are more volatile than more diversified funds. Special risks associated with investments in Chinese companies include exposure to currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards the nature and extent of intervention by the Chinese government in the Chinese securities markets, and the potential unavailability of A shares. Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-shares could result in unexpected tax liabilities for the fund which may reduce fund returns. Any reduction or elimination of access to A-shares will have a material adverse effect on the ability of the fund to achieve its investment objective. Performance of the fund may diverge from that of the underlying index due to operating expenses, transaction costs, cash flows, use of sampling strategies or operational inefficiencies. An investment in this fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the fund. Please read the prospectus for more information. See the prospectus for details.
