## Objective and strategy

Xtrackers Japan JPX-Nikkei 400 Equity ETF (JPN) seeks to track the JPX-Nikkei 400 Net Total Return Index, a benchmark consisting of 400 Japanese securities that pass a rigorous screening process. The index uses indicators such as return on equity (ROE, the amount of net income returned as a percentage of shareholders' equity), cumulative operating profit and market capitalization to select high-quality, captally-efficient Japanese companies. The MSCI All Country World Index (ACWI) ex USA is a market-capitalization-weighted index designed to provide a broad measure of stock performance throughout the world by tracking the performance of 22 developed and 24 emerging markets.

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit [www.Xtrackers.com](http://www.Xtrackers.com) or call 855-329-3837.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

<sup>1</sup> Price-to-book ratio is a valuation ratio of a stock's market value compared to its book value.

<sup>2</sup> Price-to-earnings ratio (P/E) is a stock's current price divided by the company's trailing 12-month earnings per share from continuous operations.

<sup>3</sup> Dividend yield is a weighted-sum of the annualized dividends of the index components divided by the most recent index value. Annualized dividends are determined using a sum of all dividend announcements during the previous 12 months.

**Carefully consider the fund's investment objectives, risk factors, and charges and expenses before investing. This and other information can be found in the fund's prospectus, which may be obtained by calling 1-855-DBX-ETFS (1-855-329-3837), or by viewing or downloading a prospectus from [www.Xtrackers.com](http://www.Xtrackers.com). Read the prospectus carefully before investing.**

War, terrorism, economic uncertainty, trade disputes, public health crises (including the recent pandemic spread of the novel coronavirus) and related geopolitical events could lead to increased market volatility, disruption to U.S. and world economies and markets and may have significant adverse effects on the fund and its investments.

#### Risks:

Investing involves risk, including the possible loss of principal. Stocks may decline in value. Foreign investing involves greater and different risks than investing in U.S. companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Funds investing in a single industry, country or in a limited geographic region generally are more volatile than more diversified funds. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. Performance of the fund may diverge from that of the underlying index due to operating expenses, transaction costs, cash flows, use of sampling strategies or operational inefficiencies. A fund that focuses its investments in Japan can be impacted by the events and developments in Japan, which can adversely affect performance. The fund is new and has limited operating history. An investment in any fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with that fund. Please read the prospectus for more information.
